

High Definition Brows Frequently asked questions...

What is HD Brows?

HD Brows is a seven-step eyebrow shaping treatment that focuses on design. It involves a combination of techniques, including tinting, waxing and threading, using specialist HD Brows products. There is also a full range of products you can purchase to enhance your brows in between visits.

How often will I need to HD Brows treatment?

The length of time your results will last depends on how quickly your hair grows back and how well your hair holds colour. On average you will need them done every 4 weeks.

Will I get the result I want straight away?

Most people get the HD Brows look immediately. However, sometimes it takes a few visits for your brows to be perfected.

I have over plucked my brows, Can I still have HD Brows?

Yes, your stylist can put you on a regrowth programme that will train your brows into shape over a course of visits. To speed up your regrowth and make your brows look better between visits, there are HD Brows products that will stimulate growth and make your eyebrows appear full and defined.

Can I choose a shape?

Absolutely. Brow shapes are tailored to the individual as they have to suit your look and personality. Your brows can be made dark or light, thick or thin, sharp or soft.

Can I have the treatment now?

You will need to have a patch test 48 hours prior to your appointment to ensure you are not allergic to the tint.
